Eugene, Oregon 97402-5700

Attn: Mr. Lou Musgrave  
General Manager

Ref: Enkei America, Inc.

Dear Lou:

It was certainly a pleasure to meet you and Lynn Sullivan at Enkei last week. As you can see, the rotary lock we furnished from your company has worked extremely well for the last 18 or more months.

Previously, we had one of another manufacturer and, frankly, it lasted less than 90 days. This initially created a lot of concern by Enkei on the Pneumatic conveying system we provided to them.

The good news is that you provided us a superior rotary air lock that has performed flawlessly for the last 18 months and looks like we have another many months in front of us before any services are required. Both Air Dynamics and Enkei want to thank you for your superior product and engineering.

Just wanted you to know we appreciate your fine product and service.

Best regards,  
AIR DYNAMICS, INC.

John J. Masick
